## Request for an Energy Assessment

As a service to Vermont faith communities, Vermont Interfaith Power and Light (“VTIPL”) provides walk-thru energy assessments of religious buildings. These energy assessments are provided free of charge and, in exchange for this free service, we ask faith communities to make commitments to energy efficiency and reducing their greenhouse gas emissions.

VTIPL’s energy assessments are not engineering audits, i.e. they do not include estimates of costs and savings, however, you will receive a written report that reviews prior energy use, estimates carbon footprint and identifies and prioritizes the opportunities for energy efficiency in your religious building. The on-site assessment takes 1 to 1 ½ hours and you need to provide a contact person - someone familiar with how the building is used - to accompany the energy assessor during the audit. VTIPL will also need the record of the past 2-3 years of heating energy use, which should be available from your fuel dealer.

To request a VTIPL energy assessment, complete the following information and call or e-mail VTIPL (802-829-0135), [info@vtipl.org](mailto:info@vtipl.org) or mail this completed form to the address given above.

**Name of Faith Community:** \_\_\_\_\_

**Address:** \_\_\_\_\_ **City:** \_\_\_\_\_ **ZIP:** \_\_\_\_\_

**Our faith community plans to make the following commitment(s) to energy efficiency and reducing our greenhouse gas emissions (please check at least one of the items below):**

- Keep VTIPL informed about the actions we’ve taken to improve energy efficiency**
- Keep VTIPL informed about changes in our energy use**
- Become a Member Faith Community of VTIPL**
- Make a financial contribution to VTIPL**
- Ask VTIPL to lead a workshop to help our members reduce CO2 emissions in their homes**
- Other:** \_\_\_\_\_
